

Complete Inventory Management Tables List

Warehouse Structure Flow

Complete Tables List

No	Table Name	Purpose
1	wh.warehouses	Main warehouse master
2	wh.warehouse_zones	Warehouse zones
3	wh.warehouse_aisles	Aisles inside zones
4	wh.warehouse_racks	Rack management
5	wh.warehouse_shelves	Shelves inside racks
6	wh.warehouse_bins	Final storage bins
7	wh.product_categories	Product category hierarchy
8	wh.units_of_measure	UOM master
9	wh.products	Product/SKU master
10	wh.inventory_batches	Batch/Lot management
11	wh.inventory_stock	Current stock snapshot
12	wh.inventory_movements	Inventory ledger
13	wh.grn_headers	GRN main table
14	wh.grn_lines	GRN item lines
15	wh.stock_adjustments	Stock corrections
16	wh.stock_transfers	Transfer headers
17	wh.stock_transfer_lines	Transfer line items
18	wh.cycle_counts	Physical stock counting
19	wh.cycle_count_lines	Count details
20	wh.grading_templates	Quality grading

No	Table Name	Purpose
21	wh.inventory_reservations	Reserved inventory
22	wh.reorder_alerts	Low stock alerts
23	wh.inventory_valuation	Inventory costing

Complete Inventory Flow

1. Product Creation Flow

```

Category
  ↓
UOM
  ↓
Product SKU Creation
  ↓
Barcode / QR Assignment

```

Tables:

```

product_categories
units_of_measure
products

```

2. Warehouse Setup Flow

```

Warehouse
  ↓
Zone
  ↓
Aisle
  ↓
Rack
  ↓
Shelf
  ↓
Bin

```

Tables:

```

warehouses
warehouse_zones
warehouse_aisles
warehouse_racks
warehouse_shelves
warehouse_bins

```

3. GRN (Goods Receipt) Flow

Supplier
↓
GRN Creation
↓
GRN Line Items
↓
Batch Creation
↓
QC / Grading
↓
Bin Allocation
↓
Stock Update
↓
Inventory Movement Entry

Tables:

grn_headers
grn_lines
inventory_batches
grading_templates
inventory_stock
inventory_movements

4. Inventory Movement Flow

Stock IN
Stock OUT
Transfer
Adjustment
Production
Sales
Returns

Main Ledger Table:

inventory_movements

Movement Types:

GRN
SALES_DISPATCH
PRODUCTION_ISSUE
PRODUCTION_RETURN
STOCK_TRANSFER
STOCK_ADJUSTMENT
SCRAP
CYCLE_COUNT

5. Batch & Expiry Flow

Product

↓
Batch
↓
Manufacturing Date
↓
Expiry Date
↓
FIFO Picking

Tables:

inventory_batches
inventory_stock

6. Stock Transfer Flow

Source Warehouse
↓
Source Bin
↓
Transfer Request
↓
Destination Warehouse
↓
Destination Bin
↓
Stock Movement

Tables:

stock_transfers
stock_transfer_lines
inventory_movements
inventory_stock

7. Stock Adjustment Flow

Physical Difference
↓
Approval
↓
Adjustment Entry
↓
Stock Update
↓
Ledger Entry

Tables:

stock_adjustments
inventory_movements
inventory_stock

8. Cycle Count Flow

Schedule Count
↓
Physical Verification
↓
Variance Detection
↓
Adjustment

Tables:

cycle_counts
cycle_count_lines
stock_adjustments

9. Reservation Flow

Sales Order / Production Order
↓
Reserve Stock
↓
Reduce Available Quantity
↓
Dispatch / Consume

Tables:

inventory_reservations
inventory_stock

10. Reorder Flow

Stock Below Reorder Level
↓
Alert Generation
↓
Purchase Request

Tables:

reorder_alerts
products
inventory_stock

11. Inventory Valuation Flow

Purchase Cost

↓
Movement Costing
↓
FIFO / Average Cost
↓
Closing Valuation

Tables:

inventory_valuation
inventory_movements
inventory_stock

Most Important ERP Tables

Core Masters

products
warehouses
warehouse_bins
product_categories
units_of_measure

Transaction Tables

inventory_movements
grn_headers
grn_lines
stock_transfers
stock_transfer_lines
stock_adjustments

Stock Tables

inventory_stock
inventory_batches
inventory_reservations

Audit & Verification

cycle_counts
cycle_count_lines
inventory_valuation

Real-Time Stock Logic

Available Stock =
Current Quantity - Reserved Quantity

Stored In:

inventory_stock

Recommended ERP Dashboard KPIs

KPI	Source
Total Stock Value	inventory_valuation
Low Stock Items	reorder_alerts
Expiring Batches	inventory_batches
Fast Moving Items	inventory_movements
Dead Stock	inventory_stock
Warehouse Utilization	warehouse_bins
Pending Transfers	stock_transfers
GRN Pending QC	grn_headers
